### **IT'S HALF TIME!**

Congratulations! You are one-half way through!

Please take care of the following over the next few weeks:

1. **Pre-register at Memorial Hermann – The Woodlands** for your delivery.
  - a. You may pre-register over the phone by calling 281-364-2323.
  - b. You may pre-register in person at the hospital. This is done at the pre-admission office in Labor and Delivery.
  - c. You may pre-register on-line at [www.mhhs.org](http://www.mhhs.org).
2. **ONLY IF YOU ARE A SELF-PAY PATIENT!** Whichever way you pre-register, you must submit the anesthesiology registration packet. Please request this packet from the hospital when you pre-register. The completed anesthesiology registration can be either mailed in or personally dropped off at the pre-admission office in Labor and Delivery. If you are not a self-pay patient, you may skip this step.
3. Dr. Mulder and Dr. Hanes highly recommend prepared childbirth classes. Having a good understanding of the labor and birth process helps you be more comfortable and less anxious during your delivery. To register for prenatal classes, call: Jennifer Schmidt, LPN, ICCE, Certified Childbirth Educator offers group classes (281-681-5165 or 281-620-5368). Also, Memorial Hermann Hospital offers tours of the labor and delivery area as well as classes for siblings of newborns.
5. Between 24 and 28 weeks, we will screen you for gestational diabetes. Please be prepared for an extended appointment. You will be given a glucola drink when you check in for your visit and your blood will be drawn one hour later. It is only necessary to fast 30 minutes before the drink and during the test. Please do not eat or drink anything during your test.
6. **FMLA Paperwork** – If you need FMLA paperwork completed, we kindly ask that you submit it to our office in such a timeframe to allow our office 7-10 business days to complete it. Due to the busy nature of our office, we are unable to complete FMLA paperwork during your visit. Be sure to complete all demographic information prior to submitting your paperwork.
7. All newborns need to see their pediatrician by at least two weeks of age, and sometimes within 1-2 days after discharge. Please choose a pediatrician on your insurance plan to care for your baby after it is born. It is not essential that your

pediatrician see patients at Memorial Hermann – The Woodlands, as an on-call doctor may be assigned to see the baby in the hospital when it is born. If your baby is a boy, and you would like him to be circumcised, you may arrange this with Dr. Mulder, Dr. Hanes, or with your pediatrician. Please see the attached pediatrician list for recommendations in selecting a pediatrician.

Meeting with the pediatrician while you are pregnant is one way to decide if they are the right doctor for your child. Contact the pediatrician of your choice to see if they offer pre-delivery interviews if you are interested in meeting the pediatrician before the delivery. Some questions you may want to ask your baby's doctor during your visit:

- How are office visits handled / scheduled?
- What hospital affiliations do the doctors have?
- Will the pediatrician see the baby at the hospital after the delivery?
- Does the pediatrician have any advice about breast or bottle feeding?

NOTES:
