## Inductions

Induction Type: \_\_\_\_\_ #: \_\_\_\_\_

\_\_\_\_\_ is scheduled for an induction  
(patient)  
on \_\_\_\_\_ at \_\_\_\_\_  
(date) (time)

I understand and am willing to go **without** eating or drinking after midnight the night before, just in case my induction goes the day scheduled. I will call 281-364-2380 **before** I leave home to check space availability.

I understand there are **no** guarantees to induction date or time. Every effort is being made to accommodate my family and me. However, I do understand there are limited beds in labor and delivery and depending on my induction status, I might not get in on the scheduled date. Medical inductions will get priority over elective inductions.

I understand the office staff works in coordination with the hospital staff on my behalf, but the inductions are on an "as available" basis only. The office staff or the hospital staff offers no guarantees, because space availability is out of our control.

## INSTRUCTIONS

1. Do not eat or drink anything after midnight.
2. Please call labor and delivery to confirm your induction prior to going in. The phone number is 281-364-2380.
3. Please arrange childcare ahead of time so you can be in labor and delivery at your scheduled time.
4. Please leave all removable jewelry at home. Your luggage can remain in the car until after your delivery.
5. Siblings may visit mom during labor, but need an adult to supervise them. The adult watching the children may not be mom's support person.
6. Children <16 yrs old that are not siblings will not be allowed to visit during labor.
7. Dr. Mulder and Dr. Hanes will allow up to 3 additional persons to be present in the room at the time of a vaginal delivery. However, certain medical situations may require all family to wait in the waiting room.
