- Dr. Mulder and Dr. Hanes highly recommend seeing your dentist for a routine teeth cleaning during your pregnancy.
  
- Other dental treatment recommended during pregnancy, if needed, are as followed:
  - Local anesthetic preference in 3% Mepivacaine HCL w/o Vasoconstrictor.
  - Antibiotic of choice is PCN 250 mg PO Q.I.D.
  - Prophylactic coverage for sub acute bacterial endocarditis is PCN 250 mg Q.I.D. If the pt is allergic to PCN, please give Zithromax Zpak #1, as directed.
  - Tylenol, Tylenol 3, or Darvocet N-100 are the preferred choices for analgesic.
  - Patient may be x-rayed only if necessary, with a lead shield, due to a problem during the 1<sup>st</sup>, 2<sup>nd</sup>, or 3<sup>rd</sup> trimester. Please wait for elective or routine x-rays until after the pregnancy.
  
- Dr. Mulder and Dr. Hanes DO NOT recommend IV sedation (ie. Nubain, Brevital, Valium, or Versed) during pregnancy.
